

Combined Sewer Cleaning Truck Type: CSC 10000

Modern combined sewer cleaning truck with a tank volume of 10m³, strong Highpressure - and Vacuum - Pump.

Chassis:

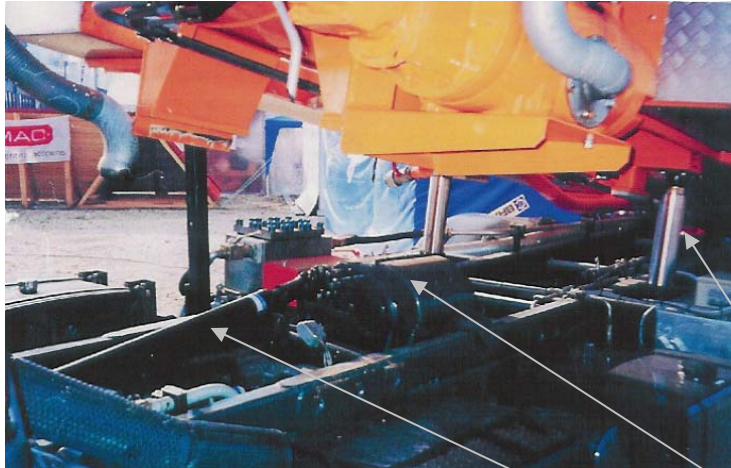

Mercedes Benz
„ACTROS“ 1831 K
with 2 auxiliary drives
Engine: 310 HP, Euro 3
Max. total weight: 19 to.

ASSEMBLY:

- HP-Pump:
KAMAT K 11055 MC (326 l/min.-170 bar) – driven directly via cardan shaft from vehicles transmission – 110 kW.
- Vacuum Pump:
HUWER 1000 (1400 m³/h), hydraulically driven - appr. 50 kW
- Hydraulic suction hose arm DN 100, swivelling 270°, and 1400 mm telescopic
- Hydraulic flushing hose reel for 120m hose DN 25 (1") and automatic take-up device, swivel mounted 180°
- Mechanical hose reel for 60m hose DN 12 (1/2")
- Winter heating via exhaust heat exchanger in water - tank, 24 V circulation pump
- 10 m³ tank volume

Combined Sewer Cleaning Truck Type: CSC 10000

One person can operate our vehicle. All functions can be switched and controlled from the rear of the vehicle.

Big hose reel, swivel mounted – 180°

Hydr. Suction hose arm, swivel mounted (270°), telescopic 1400 mm.

- Strong cylinders to dip the tank, stabil mounted on the chassis frame.
- Highpressure pump direct driven via
- Cardan shaft direct from vehicles transmission
- Swivelled suction hose arm, risen up and telescoped
- Hydr. hose reel, swivelled by 90°
- Big, easy to clean, water filter
- Vacuum pump (1250m³/h) hydraulical driven
- KAMAT Highpressure pump 326 l/min. / 170 bar, driven via
- Cardan shaft from vehicles transmission

*24 months guarantee
10 years guarantee for the tank
(against rusting through and deformation)*
