

## Combined Sewer Cleaning Truck Type: CSC 7000

**Modern combined sewer cleaning truck for narrow streets and lanes.**

### Chassis:

Mercedes Benz  
„ATEGO“ 1523,  
with 2 auxiliary drives  
Engine: 230 HP, Euro 3  
Max. total weight: 15 to.

## ASSEMBLY:

- HP - Pump:  
**KAMAT K 9050 MC**  
(234 l/Min.-180 bar) -  
hydraulically driven
- Vacuum Pump:  
**HUWER 1000** (1250 m<sup>3</sup>/h)  
hydraulically driven
- Hydraulic suction hose arm  
DN 100, 1400mm, telescopic
- Hydraulic flushing hose reel  
for 120 m hose DN 25 (1") with  
automatic take-up device and  
mechanical length counter
- Hose reel for 40 m hose DN  
12 (1/2")
- Winter heating via exhaust  
heat exchanger in water tank,  
24 V circulation pump

## Combined Sewer Cleaning Truck Type: CSC 7000

One person can operate our vehicle. All functions can be switched and controlled from the rear of the vehicle.

Large swivel-mounted (180°) hose reel.

Hydraulic swivel-mounted (270°) suction hose arm, telescopic to 1400 mm.

Strong lifting cylinder for tipping the tank, firmly assembled on the vehicle chassis.

Reversible flap for exhaust fumes to change from summer to winter operation (winter heating system for temperatures up to – 20° C.).

*24 months guarantee  
10 years guarantee on the tank  
(against rusting through and deformation)*
